about us

Daro is a company specializing in manufacturing bathtubs, washbasins, lavabo The product is monolithic molded and made from artificial stone materials.

Daro products have been present in 5-star hotel and resort projects at home and abroad.

Daro accepts to manufacture products according to design requirements from designs, sizes, colors, effects ... for project.

SINCE 2010

DIVERSE DESIGNS

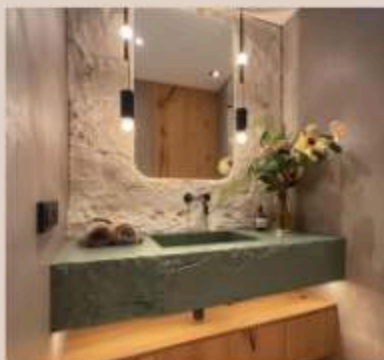

We take pride in being a trusted partner in manufacturing unique and diverse products tailored precisely to our customers' design requirements. With dedication and expertise, our team continuously strives to transform your ideas into beautifully crafted, high-quality realities. By blending creativity with advanced manufacturing technology, we are committed to delivering not just perfect products, but also a customized and limitless experience.

The distinctive surface effects of our products

Discover our exquisite line of bathtubs, sinks, lavabos, and vanities meticulously crafted from artificial stone. Emphasizing the diversity of surface effects, we excel in creating products with surfaces that mimic the rugged, textured feel of natural stone. Our innovative techniques allow us to achieve the raw, tactile sensation of natural stone while ensuring the durability and versatility of artificial materials. Elevate your space with our stunning range of products, where luxury meets functionality in every detail.

BATHROOM

Explore the diverse range of colors in our artificial stone world! We offer a variety of unique hues to make your bathtub, sink, and lavatory stand out and richer than ever. Create your own personalized bathroom space with creativity and unique style, only found with us!

The wash basin, lavabo, and vanity products are manufactured from solid surface engineered stone material. The products are cast in a single, seamless piece without any joints.

- They boast outstanding durability.
- Easy to clean and maintain: The surface, with no visible seams, prevents the accumulation of dirt and bacteria, making cleaning and maintenance easier compared to other materials.
- Flexible design: Solid surface can be molded into various shapes and sizes, allowing for the creation of products with diverse styles and designs to suit different bathroom spaces.
- High aesthetic appeal: The smooth and uniform surface of solid surface material creates a modern and luxurious appearance, enhancing the bathroom space and adding value to the room's aesthetics.
